

*****IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER*****
Fremont Water (TX1220153) Kerr County, TX

Monitoring Requirements Not Met Q1&2 2022 (January 1, 2022 – June 30, 2022)

The **Fremont Water** public water system **PWS ID TX1330153** has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Public water systems are required to collect and submit chemical samples of water provided to their customers and report the results of those samples to the TCEQ on a regular basis.

We failed to monitor and/or report the following constituents: **Radionuclides**.

This/These violation(s) occurred in the monitoring period(s): **January 1, 2022 – June 30, 2022**.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from chemical contamination. We did not complete all monitoring and/or reporting for chemical constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

We are taking the following actions to address this issue:

CSWR-Texas is exploring treatment methods to improve the quality of drinking water for our customers as well as implementing advanced systems to enhance our monitoring and reporting techniques.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

For more information, please contact Central States Water Resources Texas UOC Customer Experience by phone at 1-866-301-7725, by email at support@cswrwateruoc.com, or by mail at 1630 Des Peres Road, Suite 140, St. Louis, MO 63131.
