

James Fork Regional Water Conservation Phases

There are three possible levels of water restriction which may be implemented when needed. Each of these is explained below. It is the purpose and intention of this management plan to insure the safety and well being of the citizens of Sebastian and Scott counties. Conservation is the first step in avoiding serious problems of demand on James Fork Regional Water.

As of July 1, 2024, we are under Phase I Water Conservation

Phase 1 Restrictions

- All outdoor watering by the user is allowed on an odd-even system.
- Locations with even-numbered addresses will use water on even-numbered days.
- Locations with odd-numbered addresses will use water on odd-numbered days

Phase 2 Restrictions

- Lawn watering is prohibited
- Car washing, swimming pool or fountain filling is prohibited (not applicable to commercial car washes).
- Shrubs, plants, trees and gardens may be watered only with hand held hoses, directly from faucets only (no sprinkler systems allowed).
- The above uses of outdoor watering are permitted only the following days:

Locations with even-numbered addresses will water on even-numbered days.

Locations with odd-numbered addresses will water on odd-numbered days.

Phase 2 Violations 1st Offense

- Water meter disconnected
- \$100.00 reconnect fee

Phase 2 Repeated Offenses

- Water meter disconnected
- \$300.00 reconnect fee

Phase 3 Restrictions

- Any and all outdoor watering is prohibited

Phase 3 Violations-1st Offense

- Water meter disconnected
- \$100.00 reconnect fee

Phase 3 Repeated Offenses

- Water meter disconnected
- \$300.00 reconnect fee for each offense
- \$300.00 reconnect fee for each offense
