

Dear St. Joseph's Glen Customer,

St. Joseph's Glen UOC, a member of the Central States Water Resources (CSWR) family of companies, is proud to be your community's wastewater service provider since September 30, 2017. Over that time, we have worked closely with state regulatory agencies to ensure we are consistently in full compliance with all regulations by meeting or exceeding standards for service. Across the state of Arkansas, CSWR has invested more than \$5.1 Million into sewer utility infrastructure, significantly increasing the quality and reliability of service for all our customers, and would like to provide you with an overview of the improvements we are making in your community.

Ongoing and Completed projects at the St. Joseph's Glen wastewater treatment facility:

- Upgraded and made significant repairs to the sewer collection system piping
- Overhauled critical components at the facility, including aeration and disinfection equipment
- Installation of a new influent sieve screen to improve treatment and meet environmental discharge quality requirements
- Installation of a remote monitoring system at the treatment facility to detect potential problems before they affect the quality or reliability of services provided

Before - old screen

After – new screen

St. Joseph's Glen seeks to charge fair and reasonable rates to customers. These investments in infrastructure and daily operations will require an increase in the rates for your wastewater service. **Your monthly rate will increase from \$66 per month to \$76 per month.** Customers can expect their bill that will mail in mid-August to contain these new rates.

It is important to us that customers have an opportunity to voice concerns or ask questions. We would like to invite you to a ZOOM conference meeting on Tuesday, July 26th at 6:00pm with senior leadership members of St. Joseph's Glen. You can join the ZOOM call by using the following link:
